

## Gallaudet hosts symposium on educational placement

by Gina Oliva

On May 28-30, Gallaudet College, the National Technical Institute for the Deaf and the Kellogg Special School of the Future Project co-sponsored a National Symposium on Educational Placement and Services for Hearing Impaired Students.

This working symposium, which was held on the Gallaudet campus, was designed to develop a guidelines document on educational placement and services for hearing impaired children from preschool through high school. Educators representing state and local levels of education and a full range of educational and communicative philosophies were invited to participate along with parents of hearing impaired children and deaf adults in activities structured to result in the basic materials for this document.

The symposium opened on Tuesday evening with a reception and opening program. Dr. Patria Forsythe, staff director of the Senate Subcommittee on the Handicapped and Dr. Edwin W. Martin, assistant secretary for Special Education and Rehabilitative Services, were special guests and gave keynote talks. Additionally, Dr. Edward C. Merrill, Jr., president of Gallaudet and Dr. William Castle, director of the National Technical Institute for the Deaf, offered words of welcome and inspiration. Roslyn Rosen, director of the Special School of the Future and Dr. Milo Bishop, dean of NTID, as chairpersons of the planning committee, introduced the speakers and other special guests.

On Wednesday, May 28, Bishop led the first session of the symposium with a presentation of the goals of the symposium. Additionally, he presented five premises that had been developed by the planning committee as assumptions that needed discussion and consensus prior to the rest of the work of the symposium. This presentation encouraged a lively discussion and many thoughts and ideas were aired; the wording of several assumptions was modified.

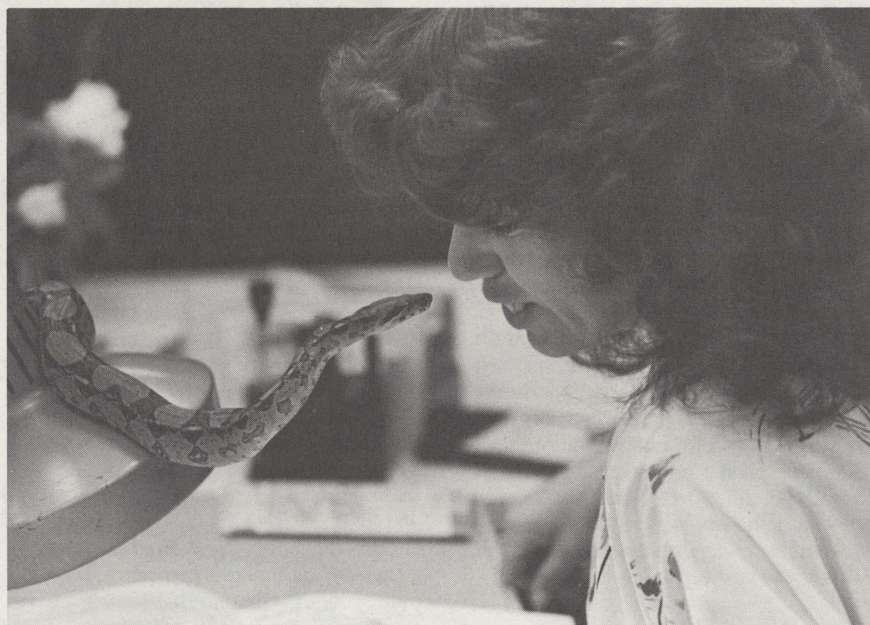

Following this large group session, symposium participants broke into predetermined groups to discuss specific topic areas. These small groups remained together for the duration of the symposium, working on their own special area. These groups, corresponding to chapters in the proposed document were: Appropriate Education, Interpreting, Tutoring/Notetaking, Inservice Training, Counseling and Guidance, Communication: Speech and Audiology and Communication: Visual Programming. The group on Appropriate Education had the task of defining appropriate education and discussing further the premises and criteria for placement. The other groups were each concerned with various aspects of these support services. Each group ad-

ressed, from their professional point of view, student needs, the types of services to be provided, the criteria for professionals providing such services, the roles and relationships with which the service providers are concerned and various service delivery models.

Although most of the symposium time was spent in small groups, all meals were taken together and participants had opportunities to interact with members of other groups. A brief wrap-up took place with a wine and cheese party on Friday afternoon; at this time, Rosen and Bishop shared with the whole group the plans for editing and publishing the guidelines document. The publication, which in addition to the topics mentioned here will include an introduction to deafness and an overview of Public Law 94-142, will be directed at administrators and personnel in local education agencies. The editing will be done by the chairpersons of each of the working groups, with final editing to be done by Rosen and Bishop. Those parts of the document specifically related to the official regulations of PL 94-142 will be shared for comment with Dr. Edwin Martin and the Office of Special Education.

Members of the planning committee/group facilitators were: *Appropriate Education:* Dr. Milo Bishop, NTID and Roslyn Rosen, Special School of the Future, Gallaudet. *Interpreting:* Dick Dirst, Registry of Interpreters for the Deaf.

*continued on page 4*

**Mona Gold**, an artist with Art/Photo, likes snakes. That's why, when MSSD students needed a place to keep a three-foot-long pet boa constrictor for the morning, she volunteered to help them out. The snake was friendly, said Gold: "He kept stretching out and kissing me on the nose." When the snake wasn't crawling up her arms, he spent the morning on her warm desk lamp.

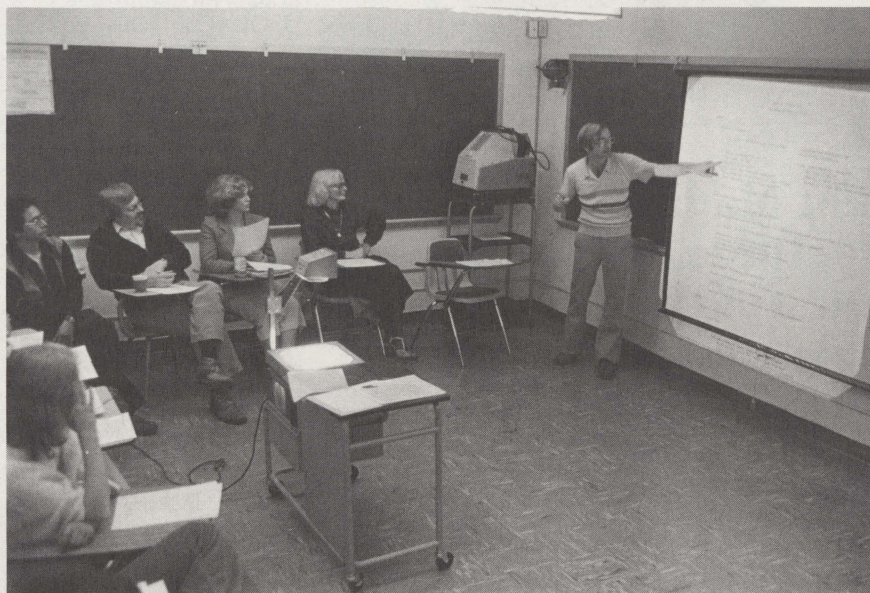

## Adler scholarship fund established

A Gerald Adler Memorial Scholarship fund has been established by the Lions of Virginia, District 24-A, with an initial contribution in the amount of \$8,000 by the Lions Clubs and the Helen Keller International.

The memorial fund will provide scholarships to needy deaf students, both on the undergraduate and graduate levels, who have demonstrated academic ability to the satisfaction of the College.

The late Gerald Adler was a past president of the Alexandria/Potomac Lions Club. He was also a professor of mathematics at Gallaudet and served as treasurer of the National Chapter of the Gallaudet College Alumni Association.

If you would like to contribute to the scholarship fund, you can contact your local Lions Club or the Office of Development, x5410.

**John Canney** leads a discussion at a meeting of teachers in the English Department. Representatives from the English Department will be attending the 100th anniversary celebration of the National Association of the Deaf, which begins June 29 in Cincinnati. They will be representing the Section of English Teachers of the Deaf and promoting that organization's magazine, "Teaching English to the Deaf." Gallaudet's Nancy Kensicki is the national president of SETD.

## EPOC staff presents supervision workshop

Gallaudet College and the Middle Atlantic Cooperative Education Training Center will present a workshop on "Supervisory Techniques—You and Your Hearing Impaired Student" on Thursday, June 12.

The basic objective of the program is to assist supervisors in the development of effective means for satisfactory working relationships. The workshop will provide information on the unique needs of hearing impaired students and sensitize supervisors to the specific skills necessary for working with hearing impaired students.

Topics to be covered include implications of deafness—psychological and social aspects, on the job communication and problem solving.

Instructors for the workshop will be Mary Gawlik, coordinator for Volunteer Programs, EPOC; Ann Nissen, assistant director, EPOC; Lily Ransom, coordinator, EPOC Office, and William Varrieur, director, EPOC.

## Personnel changes in Physical Plant

Several months ago, Thomas A. Lillis, director of the Physical Plant, suggested that his department be divided into two departments: 1) Physical Plant Maintenance and Operation and 2) Design and Construction. Lillis suggested also that he would like to become director of Design and Construction, more particularly because of his interest in the Design Center for Barrier-Free Environment for deaf persons. His new title is director, Design and Construction, and his responsibilities include the management of design and construction for new buildings and also for renovation and refurbishing of existing buildings, along with his responsibility for the Design Center. Lillis came to Gallaudet in 1972 as assistant director of the Physical Plant. In 1973, he became director of the Physical Plant.

For several months now, recruitment has been taking place for the position of director, Maintenance and Operation, with this director responsible for 1) utilities maintenance and operation, 2) building and equipment repair and maintenance, 3) custodial services and 4) grounds care. A screening committee composed of Lillis, chairman, Anthony Giannelli, Fred Kendrick, Kay Oman, Don Pettingill and Patricia Potter, has interviewed the six top candidates for the position and have forwarded their suggestions to the vice president for Business Affairs.

Howard J. Cihak has been selected for the position and will begin his duties June 16. Cihak graduated from Gallaudet College in 1971 with majors in Business Administration and Government. For the past four years, Cihak has managed commercial and condominium properties in the District of Columbia, Maryland and Virginia. Prior to that, he was employed as a budget analyst and as a program analyst in the federal government.

Jerry Lee, the assistant vice president for Business Affairs, will be working closely with Cihak 1) to have a smooth transition in the Physical Plant Department to the new director, 2) to continue to improve organizational communications and understanding, 3) to make the Werner preventive Maintenance System an even more effective management tool, 4) to provide whatever supervisory training is necessary for the benefit of supervisors and 5) to continue the emphasis on output and quality services.

In addition, two other personnel changes are being made. Utility cost is the most costly unit in the Maintenance and Operations Department. James H. Hull, assistant director of Buildings and Grounds, has also given considerable effort to energy conservation in addition to his responsibility for custodial services and grounds care. Because utility cost has become a formidable item in the budget, Hull will become assistant director, Energy Conservation, and will give his full-time effort to conservation of energy. Hull came to Gallaudet in 1971 in charge of building and equipment repair and maintenance.

Martin V. Willigan, presently the manager of Grounds Care, will become the assistant director, Buildings and Grounds, the position currently occupied by Hull. Willigan came to Gallaudet in 1969 as a Residence Hall supervisor. He also served as a coach in the Department of Physical Education. In 1974, he joined the staff of the Physical Plant Department as Grounds supervisor.

Heina Temple is a secretary with College Educational Resources at MSSD.

## Camp for deaf youth scheduled

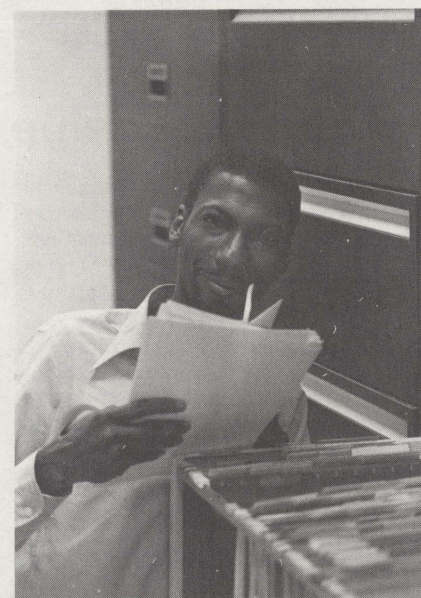

A Baptist Deaf Youth Camp will be held at the Acadian Baptist Center in Eunice, LA from June 23-28.

Any deaf or hard of hearing boy or girl who is 10 to 20 years of age, regardless of church affiliation, may attend the camp. Activities will include campfires, worship, nature hikes, bible study, games, discussion groups, crafts and movies. There will also be a variety of sports such as softball, basketball, volleyball, ping pong, relays,

swimming, tennis and other games and amusements.

A camp nurse and lifeguard will be on the faculty.

Donations of \$40 are appreciated. If you are interested in attending, contact Hoyett Larry Barnett, director, Deaf Ministries Office, Louisiana Baptist Convention, P.O. Box 311, Alexandria, LA 71301, or call TTY: 318-442-1920 or toll-free 800-622-6549.

## PM Magazine features segment on South Pacific

A piece about the MSSD Performing Arts Department spring production, "South Pacific," was scheduled to be one of the features on "PM Magazine," WDMV-TV, Channel 9 at 7:30 p.m. on Monday, June 9. The piece was expected to be either signed or captioned.

Star of "PM Magazine" Henry Thnenbaum will show how the production was put together and what made it so successful through scenes from an actual performance, from a rehearsal and from interviews with the people from MSSD who helped make the production possible.

## Summer Reading Institute to be held in Rockville

Under the direct supervision of noted educator Dr. Nancy Dworkin, the Center for Unique Learners will sponsor their Fourth Annual Summer Reading Institute at West Rockville Elementary School from July 7 - Aug. 15.

Among other accomplishments, Dworkin is an invited professor at Gallaudet College and president of the Disabled Readers Division, International Reading Association.

This year the program of the Summer Reading Institute has been developed to include hearing impaired youngsters and teenagers. Before the end of the program, each student receives a full diagnosis. Many of the members of the staff are skilled in the use of sign language (ASL, Signed English and other total communication systems).

Students will be involved in both intensive individual remediation and in small group interaction. Each small group unit will have a combination of special education teachers and at least one member familiar with manual communication.

Additional information can be obtained by writing to:

Registrar, Center for Unique Learners  
15 Laird Street  
Rockville, MD 20850  
Phone: (301) 279-9048

## Sponsored R&D

### Grant/contract deadlines

Provided below are application deadlines of selected federal programs that offer potential grant or contract opportunities for faculty, staff and graduate students. The deadline is followed by an abbreviation of the federal agency and the program title. More details on programs of interest can be obtained from Glenn Pfau, director, Office of Sponsored Research, x5030 (voice or TTY).

Deadline	Program
06/27/80	USOE—Law Related Education Program
06/30/80	USOE—Community Education Program
06/30/80	NIE—Educational Research and Development
06/30/80	NIHR/OHDS—Research and Training Centers on Aging, Mental Illness, and Independent Living
06/30/80	BEH/USOE—Handicapped Public Policy Analysis and Dissemination Project
06/30/80	NIHR/OHDS—Rehabilitation and Demonstration Grant Program
07/01/80	NSF—International Travel Grant Program
07/01/80	NEH—Higher Education Grants: Regional and National
07/15/80	NSF—Science for Citizens Forums, Conferences, Workshops, and Planning Studies
07/15/80	NSF—Unsolicited Research Proposals for Materials Research Laboratories
08/01/80	NSF—Measurement Methods and Data Resources
08/19/80	NSF/NIE—Development and Research in Mathe-

tics Using Information Technology

09/01/80 NSF—History and Philosophy of Science

09/01/80 NSF—Science in Developing Countries

### Weekly program highlight

The Bureau of Education for the Handicapped, U.S. Department of Education, has announced a procurement opportunity entitled "Education Media Production Project for the Hearing Impaired." The procurement is for the operation of a project to serve the educational technology needs of the deaf and hard of hearing population through development and production activities in the areas of concept development and decision-making skills. The project will adapt, develop and evaluate media/materials and technology to meet the needs of hearing impaired learners.

The project is to be funded in three one-year phases. The initial award will be for one year only. Eligible are institutions of higher education, state and local education agencies or other non-profit agencies. A level of effort of eight professional person years per year (approximately \$400,000-\$500,000) is estimated. Requests for copies of the RFP must be postmarked no later than June 15, 1980 to be assured of receiving an RFP. It is expected that copies of the RFP will be available this week, though no deadline date has been established for receipt of final proposals. If interested, a written request for RFP 80-60 should be directed to the attention of: Ms. Carol Carter, U.S. Department of Education, Grant and Procurement Management Division, Support Operations Branch, Regional Office Building No. 3, Room 5678, 400 Maryland Ave. SW, Washington, DC. 20202.

## Among Ourselves

Belinda Burgess, Lynne Gelzer, Jo Israelson, Cindy LeBuffe and Phil Mackall have been selected to present a workshop at the Paquin School for the Deaf in Quebec. The workshop will be June 18-20 and will cover Methods and Materials for Teaching Deaf Children and lectures on Basic Principles of Communication.

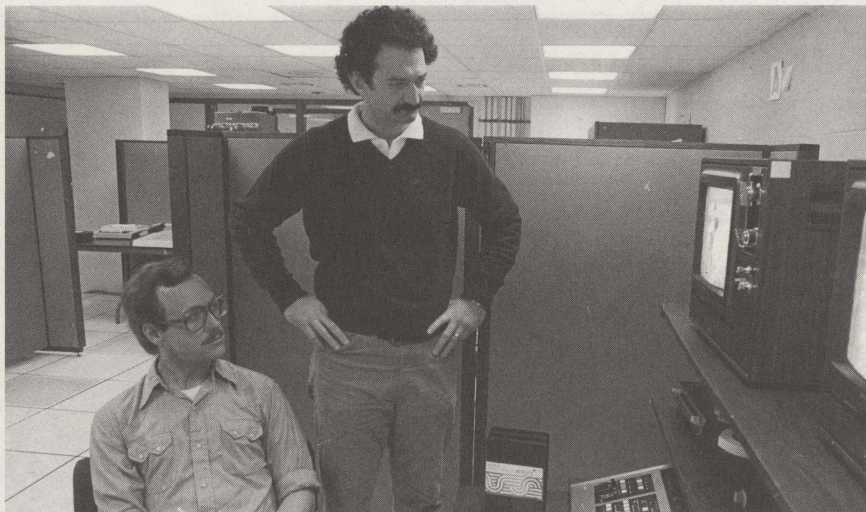

On Tuesday, May 21, William McFarland, Daniel Bode and Stephen Lotterman of the Department of Audiology presented a one day seminar on Audiology to lawyers from the Department of Labor. This seminar was designed to give lawyers involved in litigation on hearing loss cases a better understanding of the causes and consequences of hearing loss.

Kay Fulton, Shelley Fields, Matt Searls and Norma Buemi from the Counseling and Placement Center recently attended a workshop on "How to Design and Lead Assertive Training Groups" led by Joan Pearlman, co-author of *The New Assertive Woman*.

Vera Follain-Grisell of the Counseling and Placement Center attended a week-long Drugs in Perspective workshop May 19-23.

The Athletic Department of the Model Secondary School for the Deaf held its Third Annual "Sports Awards Banquet" for the 1979-80 school year on June 4. Billy "White Shoes" Johnson, kick return specialist and wide receiver for the Houston Oilers, was the guest of honor and speaker.

Deborah Sonnenstrahl, assistant professor of Art History, presented a lecture June 1 at the Metropolitan Museum of Art on "Francisco Goya: The World Through His Eyes." She was the first deaf person to be so honored at the museum. About 400 deaf and hearing persons attended the lecture.

Larry Ashley is a junior director and Dan Radovsky a TV scriptwriter with Gallaudet College TV.

## Policies & Benefits

### Dental and Disability Insurance benefits

by Steve Kallan

Two new employee benefits become effective on July 1, 1980: Dental Insurance and Long-Term Disability Insurance (LTD). Final approval for these plans was given by the Gallaudet Board of Trustees at its May 19, 1980 meeting. The College will pay 100% of the premium cost for employees for both plans; dependents may choose to enroll for dental coverage on a voluntary basis.

The Dental Plan covers four levels of dental care which include all dental services: preventive, basic, major and orthodontia. Major highlights of the plan are that preventive care, that is, visits to the dentist, cleanings, examinations, fluoride treatments, etc. is cost-free and that orthodontic coverage is included.

Of special interest to employees with dependents is the fact that the voluntary dental coverage for dependents can go into effect only if 75% of all eligible dependent groups enroll. A dependent

groups is spouse and/or any number of children 19 years or under. This means that of about 1000 eligible employees, perhaps 500 have dependents. To provide coverage for any dependents the insurance company insists that 75% of those 500, or 375, eligible groups enroll in the plan. The College community must achieve this 75% participation rate by July 15, 1980 if coverage is to be effective.

Long-Term Disability Insurance guarantees that if you are totally disabled and cannot work, you will continue to receive 60% of your Gallaudet salary for as long as you are disabled. The LTD plan provides coverage for all employees from the first day of work at Gallaudet and supplements the disability benefits of the Civil Service Retirement System.

Since both Dental and LTD plans are free of the federal regulations that govern other health plans, the College has much more flexibility regarding levels of contribution and employee eligibility. All permanent employees are eligible for both plans and all extended temporary employees with at least one year of service will be included. Employees covered by collective bargaining agreements are not eligible for either plan. So that benefit dollars are divided equally, the College will pay the full premium cost for employees. This assures that there is no financial discrimination against employees without dependents or no reward for employees with dependents.

The cost for Dental Insurance for employees is \$3.23 bi-weekly, paid by the College. The Dental Insurance premium for dependent groups is \$7.90 bi-weekly, paid by the employee. The College will also pay 100% of the premium cost for LTD which totals about \$70,000 per year.

A special provision has been made to help reduce the dental premium costs for dependents of families of which both spouses are Gallaudet employees. The College's contribution for one spouse, as an employee, can be credited toward the premium for dependents. If you fit in this category, i.e. both spouses are Gallaudet employees, please notify the Office of Personnel.

All eligible employees will receive soon a more detailed description of the plan and enrollment cards for dependents' dental care. It is important to stress the significance of submitting enrollment cards by the July 15, 1980 deadline to assure Dental coverage for dependents. The decision to have Dental Insurance for dependents is the sole responsibility of employees with dependents choosing to participate.

## Letters

Dear Editor:

I felt need to comment on "Gasohol: you judge" on OTG, Vol. 10, No. 32. The article opens with the idea it is going to give us information with which to make a wise decision about gasohol. Unfortunately, as I read on, I could find only two points out of nine that seemed to admit gasohol had any merit at all. Strange... I wonder why people even bother to produce it?

Personally, every time I fill up my gas tank I have reason to question the motives and ethics of the Exxon Corporation and what they have done to my style of living in the past several years. What may bother me more, though, is to realize that even while they continue to maintain control of my personal life, the Exxon Corporation has also found a way to unobtrusively creep (or seep?) into the print of a newsletter written for people who are, ironically, victims of Exxon's profit hunger. I'd be really interested in seeing OTG publish a truly positive article about gasohol—and until then I'll consider this article as uninformative as I consider Exxon.

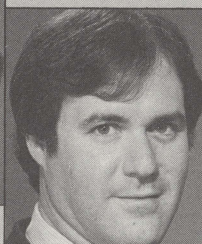

Sincerely,  
Kathy Burton  
An Exxon victim

## Personalities

Betty Fuchs is Gallaudet's new director of Development and will be at Gallaudet in this capacity until July, 1981. She is currently on leave for a year from Wheelock College in Boston, where she serves as vice president for College Development. In her position here, she will continue to further the work that has already been done by the Development Office in securing funds from the private sector—foundation corporate and individual donors. Fuchs has worked at Wheelock College as an assistant director of placement, assistant to the president and served for three years as dean of Admissions before she became vice president for College Development. She has also taught at the University of Michigan and has worked on and off for many years at the Harvard Business School. She has a degree in Business Administration from Antioch College. Fuchs came to the Washington area temporarily with her husband, who is on leave from his position as chairman of the Department of American Studies at Brandeis University and is currently serving as the executive director of the Select Commission of the U.S. Immigration and Refugee Policy.

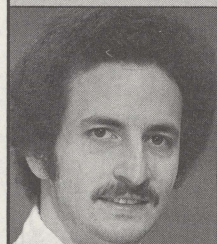

Fuchs

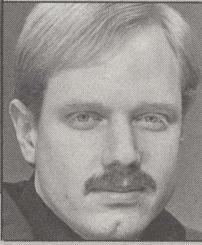

Schavone

Terry Schavone has been hired as the new associate director of Development and will become director of Development in July, 1981. He will begin working at Gallaudet officially on June 30. Schavone is currently assistant to the vice president for Development at the University of Maryland, where he has served for three years. Prior to that, he was director of the Annual Fund at the University of Maryland and also served as a special assistant to the financial chairman of the Republican National Committee in the Ford campaign. Schavone received his undergraduate degree from the University of Pittsburgh, MA from Duquesne University and has done post-graduate work at Catholic University.

Grossinger

Cagle

Malcolm Grossinger is a new job design analyst within the Division of Business Affairs. In his position, Grossinger will be conducting research in the redesign of jobs to make them more accessible to hearing impaired persons and those with other handicaps. He will

**Tutoring/Notetaking:** T. Alan Horwitz, NTID.

**Inservice Training:** Dr. Gerilee Gustason, director, Department of Education, Gallaudet and Jackie Mendelsohn, International Association of Parents of the Deaf.

**Counseling and Guidance:** Gina Oliva, staff assistant, Office of the President, Gallaudet.

**Communication: Speech and Audiology:** Mary Anne McDermott, Office of Education.

**Communication: Visual Programming:** Carl Kirchner, director of the Division of Instruction, KDES and Michael Deninger, dean, KDES.

An additional member of the planning committee, George Shellam, Gallaudet's PL 94-142 coordinator, was responsible for the two introductory chapters.

## We have a lot of space

In order to develop Gallaudet's annual operating budget, a detailed list of gross square footages for all facilities on a campus-wide basis was developed. As of Fiscal Year 1982 (which begins in October, 1981), Gallaudet will have a total of 1,798,758 square feet of building space.

Some of this space will come from construction that is presently taking place on campus. The new Learning Center will provide 93,000 square feet of space. The Student Union addition is another 19,000 square feet. The Auditorium construction adds 10,250 square feet, and the Central Utility Building addition totals 1,004 gross square feet.

A new space increase for FY 1982 is the Field House, which will provide 68,000 gross square feet of space. The adjacent parking structure will add another 68,000 square feet.

Here's a breakdown of building and parking structures that will be available in FY 1982, comparing them with space that will be available in previous years. (This does not include the newly-acquired 6th Street property.)

### All Buildings

College	698,069
